ABOUT **VERGE**

Verge's community includes artists and creative professionals, as well as educators, families, youth, and adults who seek to engage with the arts in a meaningful way. WELCOME

Verge Center for the Arts is proud to present the 17th annual Sac Open Studios program. With over 270 participating artists, we're excited to celebrate our region's talented artists with our largest tour yet!

Photo by Sarah Marie Hawkins

Sac Open Studios holds a special place in my heart. I was first introduced to this program by Jose Di Gregorio, a local artist and Sac Open Studios participant whose art is featured on the Weekend 1 cover page. Jose handed me the guide upon meeting him at Verge back in September of 2014. Not only did Jose become a new friend and one of my favorite local artists, the Sac Open Studios guide brought

the Sacramento art community to my fingertips. With the guide in hand, I excitedly hopped from one studio to the next, taking in all the art I could.

Since that time, I have had the opportunity to facilitate this program for the past 5 years, have gained project management skills that will last a lifetime, and have met and been inspired by hundreds of regional artists. With a heavy heart, I'm announcing that this will be my last year as an employee at Verge and therefore my last year facilitating Sac Open Studios. However, this will also be my first year as a participating Sac Open Studios artist. Come say hello to me during Weekend 1 where I will be showing my art at Sunrider Studios along with five of my studio mates.

Whether you're new to the region like I was in 2014, are an out-of-town visitor, or are a long-time resident, there's something in Sac Open Studios for you. You'll visit friendly artists in their studios, meet fellow art enthusiasts, and perhaps even find artwork to take home or gift to loved ones. This self-guided tour will also expose you to unique and vibrant parts of the region you may have never encountered before. Be sure to stop in to support local businesses and tell them Sac Open Studios brought you to their part of town!

This is my call to you to explore the art and support the many talented artists who live and work in our region. You may even find some new friends and inspiration along the way!

See you on the tour!

Joha Harrison | WEEKEND 1 / 115

"Art is important to me because it creates a new world of imagination in the artist as well as the viewer. In that new world different things may come to light and be able to be translated into this world."

Joha Harrison is a mixed media artist, photographer, and filmmaker. He uses paint, paper, and found materials to create 2-D artworks and immersive installations which explore the subconscious mind, racism, and history. Harrison often combines

abstract, rough, and unrefined materials to create beauty. As part of Verge's 2021 Sac Open Studios partnership with Downtown Commons (DOCO), Harrison created an interactive mural which was displayed in the DOCO plaza.

Joy Kuo | WEEKEND 2 / 233B

"I always try my best to support any nonprofit art groups. I think art is very

Joy Kuo is an interdisciplinary artist who merges Eastern sensibilities with Western energy in her paintings, wearable art, and ceramics. Her recent work includes ceramic sculptures of rock formations which use the Tai Chi concepts of harmony and balance to

bring positivity and healing energy to the viewer. Kuo uses Chinese inks, watercolor, and oil paint to portray flowers and landscapes inspired by her studio surroundings in Locke. She also creates hand-sewn and painted silk shawls and scarves.

Ashley J. Ortiz-Diaz | WEEKEND 1 / 121

"Art has been an outlet for me to understand my anxiety around death and identity. It has helped me mature and process things that would otherwise just roll around in my brain and lower my ability to function. I can also share what I learn and help others understand our history."

Ashley J. Ortiz-Diaz uses charcoal, graphite, and ink to create artworks that honor the dead and explore our cultural understanding of death. Specifically, she is interested in the deaths and burial practices of Black individuals. She is currently focused on Florida's historical Black cemeteries that have been built over without proper removal and reburial. While this can be a dark topic, she believes death is inherently about life and pairs this subject matter with galactic imagery of black holes, dark matter, and the vacuum of space.

Jeleana T. Johnson | WEEKEND 2 / 235C

"Artists are the physical record keepers of the world. I want to leave a record of the time in which I was blessed to be alive and share it with the rest of humanity."

Jeleana Johnson is a textile artist who quilts, beads, crochets, sews and paints with acrylic and watercolor. Her art provides an avenue for Afrocentric expression. She primarily depicts people and plants, and enjoys accentuating the human face with color, or other media such

as wood, beads, fabric and stitching. Her recent practice includes manipulating "Mud Cloth" and other Afrocentric fabric — the colorful prints and designs provide her with many artistic possibilities.

Sandy Whetstone | WEEKEND 1 / 133B

"Art is a uniquely human form of expression. It can motivate and inspire. One image, one song, one poem, one play can express a world of emotions, and illustrate universal themes. Art connects us to the past and present and can show us our future. Art can teach us about each other and help us see into other souls, minds and hearts."

Sandy Fong Whetstone is a printmaker, painter, and ceramic artist. She creates light-hearted, satirical, ironic, and occasionally political prints, paintings, and sculptures which explore how we relate to the natural world. She creates anthropomorphized animals to convey how we attribute human qualities to

animals in order to relate to them. However, her artworks come with a deeper message — that there is danger in this attribution. We can forget that there should be a healthy distance between humans and wild animals.

Stephen C. Hayhurst | WEEKEND 2 / 207F

"I feel it's important to support anyone who pursues art in whatever they do, whether it's the visual artist or the waitress in the culinary world. Our lives are in a better place when they are done at this level of thoughtfulness, hard work and with the passion of art. The possibility of art is everywhere."

Stephen Hayhurst uses various media to create his artwork, including traditional drawing media, collage, photography, acrylics, and digital drawing. His recent practice has focused on digital media as a way to look for humanity in our digital

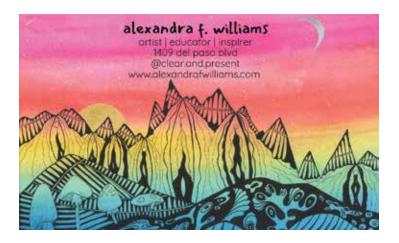

world. He likes creating and exploring with digital media because it is a tool and a technology of our times. Hayhurst describes his art and process as "pretty simple" and himself as "just a maker expressing myself."

Supporting the power of the arts

Creativity not only powers the soul, but empowers your health. And research shows that they're both linked in positive ways.

That's why it's important to embrace your creative side. Learn a musical instrument, adventure to a new play or join the dance class you've always wanted. And when you need a team of experts behind you, you'll always have partners in your care with UC Davis Health.

Connecting our patients and region to world-class care, close to home

As Sacramento's No. 1 hospital and its only nationally ranked academic medical center, we're honored to bring together expertise, research, and innovation to understand what makes our patients unique—so our communities can be stronger and healthier.

There are many ways we provide extraordinary care when you need it, including:

- Expertise from doctors rated
 4.8 out of 5 stars by patients
- 150 specialties with nationally ranked care in cancer, heart, maternity and more
- Personalized care at 17 clinics across the Sacramento region, from Davis to Folsom and Auburn to Elk Grove
- Convenient telehealth options including Telehealth Express
 Care for urgent needs and same-day video visits
- Sacramento's only NCI-designated comprehensive cancer center, offering early-stage clinical trials and the latest diagnosis and treatment options
- Home to the region's only academic children's hospital with a nationally ranked level IV newborn ICU (the highest level of care) to help give preemies the best chance for a healthy life
- Magnet* designation the nation's highest recognition for nursing excellence

Verge Heroes

As the cultural landscape continues to shift, the unwavering support of our community is more important than ever. The generous contributions from our members, patrons, and the general public help us continue to provide a place for the arts to thrive – where artists convene, community members explore art making, and art lovers discover new and engaging artwork.

We are privileged and honored to be part of such a dedicated, creative and supportive community. We extend a special thank you to the James and Susan McClatchy Fund of the Sacramento Region Community Foundation for their generous match on the 2022 Big Day of Giving.

In honor of you, our Verge Heroes, who have continuously offered your time, dedication, and financial support, we extend our sincerest gratitude and admiration. It is because of you that we are able to foster, support and celebrate the arts in Sacramento and beyond. In recognition of all you've done for us — cheers to you, Verge Heroes!
