# ABOUT VERGE

Verge Center for the Arts is the leading cultural institution in the Sacramento region for contemporary art and ideas. We have a mission to extend the dialogue about contemporary art to the central valley. Verge supports this mission by providing vital resources to local career and emerging artists as well as offering arts education opportunities for youth and adults.

Located in Sacramento's Southside Park neighborhood, Verge's building contains 32 artist studios, two expansive gallery spaces, a classroom, and a fine art printmaking facility. Through the combination of these elements Verge has created an art center model similar to those seen in other cities – Davis, Richmond, Grass Valley, San Francisco – offering a combination of resources to serve artistic professionals and the public.

In 2023, Verge celebrated the tenth anniversary of our groundbreaking at 625 S Street. On the heels of this milestone, we are proud to announce that we are embarking on a major construction project to expand and upgrade our facilities. These exciting changes are made possible by grant funding from the California Natural Resources Agency.

# WELCOME

Verge Center for the Arts is proud to present the 19th annual Sac Open Studios tour, highlighting over 240 artists from across Sacramento and Yolo counties.

Sac Open Studios is Verge's largest annual public program, serving an estimated 30,000 attendees. It features a self-guided artist "open studio" tour throughout Sacramento County and parts of Yolo County. This year's tour takes place September 14-15 & 21-22, 2024. To attend the self-guided tour, use the artist directory and maps in this guide to discover artists you'd like to visit and plan your route. If you'd like to learn more about participating artists or prefer to navigate on your mobile device, visit the virtual artist directory and maps at [sacopenstudios.com](http://sacopenstudios.com) or by scanning the QR code below.

We offer this program as a means to connect local artists with art lovers, patrons, gallerists and their neighbors and to bring arts engagement directly to the public, in their own communities. To make this year's tour more accessible, we are pleased to partner with SacRT to offer free rides during both weekends of Sac Open Studios! To ride for free, present a screenshot or printed version of the Sac Open Studios Free Ride Flyer available on our website to the bus operator or SacRT fare inspection staff. We highly encourage you to hop on SacRT and explore!

The Verge team would like to express our gratitude to the 30,000 supporters of our creative community that attend Sac Open Studios each year, as we know we couldn't do it without YOU! We look forward to seeing you all this September for another great year of Sac Open Studios!

**Junnior Navarro | WKND 1 / 126A**

I'm Eli Linares Navarro, best known as Junnior Navarro. A Mexican artist based in Sacramento, my artwork is about my Mexican roots. When I talk about my roots, I refer to the essence of my customs, my influences, my family and my way of life. My art is a body of work of my Mexican heritage. I want to provide the viewer with a creative perspective of the life I lived and I live through my artwork. I work on canvas and paper of various sizes in which acrylic paint is most

prevalent, although I also use colored pencils, graphite and other materials.

My artwork has been exhibited in Cuba, Belgium, France, Mexico and the United States and published in magazines, newspapers, and art catalogs from around the world including: The San Diego Union-Tribune, Sacramento News and Review, Art Matrix, LatinAmericanArt, Mexico Vivo, Art-Facto.Today, and Fox News.

**Erik Hosino | WKND 2 / 231B**

Erik Hosino is a Sacramento artist who brings life to his unique visions through several mediums, including acrylic painting and block printing. His art navigates the complex intersections of humor, mortality, spirituality, and the natural world. Drawing inspiration from

the enchanting storytelling of classic Disney, the vivid colors of pop art, and graphic poster design, Hosino's art is a reflection of his eclectic inspirations, offering viewers a unique and thought-provoking visual experience.

**Bahiya Spaulding | WKND 1 / 102E**

Bahiya is an innovative artist based in Sacramento, CA, dedicated to exploring the depths of human emotion and experience through visual art. With a unique ability to communicate what language cannot, Bahiya's work transcends traditional boundaries, offering viewers a profound and immersive experience.

Drawing inspiration from ancient archaeological sites, symbolic patterns and nature, Bahiya employs a diverse range of mediums, including sculpture, watercolor, and acrylic paint. Recently, she has begun to explore ceramic sculpture, adding another dimension to her artistic repertoire. Each piece is a testament to her belief in the transformative power of art.

**Angie Eng | WKND 2 / 262**

I'm a Sacramento native who ventured into the world living in New York City, Paris, Switzerland, Ethiopia, Mexico, and Beijing while making conceptual intermedia art and teaching. I'm peripatetic in both my residence and art form with a love of making connections between disparate ideas that make sense in compositions both cognitively or visually. I gravitate toward the unpredictable; I have traveled far away only to come full

circle to arrive in Locke where I discovered this year through art, that it is here where my great-grandparents started their new life in America. I never guessed that after 25 years in experimental media performance, I'd be crouching down to record cranes and frogs and capturing poetic stories from past and present residents of this unique Chinese national landmarked Delta town.

**Deladier Almeida | WKND 1 / 158**

Deladier Almeida has lived in California since the mid-1980s, earning his degree from the University of California, Davis, in 1990. Trained by renowned artists Wayne Thiebaud and Roland Petersen at UC Davis in the 1980s, Almeida's work marries the restrained quality of Thiebaud's sleek style with Petersen's more gestural brushwork, and is inspired by other Bay Area artists including David Park, Elmer Bischoff, and Richard Diebenkorn.

the Crocker Art Museum, the Manetti Shrem Museum of Art, the Hilbert Museum of California Art, the Pasadena Museum of California Art, LA Natural History Museum, the Caldwell Snyder gallery in San Francisco, the Campton gallery in New York City, the Bennington Center for the Arts in Vermont, the Obsession of Art Gallery in Bergen NL and Amsterdam, and the Albemarle Gallery in London. His work is currently represented by galleries in California, Colorado, New Mexico, Arizona and Bergen, in the Netherlands.

He has exhibited his work at the San Francisco Museum of Modern Art,

**Amy Vidra | WKND 2 / 225**

Amy Vidra is a mixed-media artist based in Sacramento, CA. Often based on the morphing of memories and time, the contradictions in life, and the humor in all of it, her sculptures take on abstracted organic forms that tell stories in and of themselves and take on new narratives as installations. Her recent boat series uses juxtaposed

materials to inform their capacity to voyage and inform their fate. Amy's current conceptual installation work combines repurposed materials of packaging and fibers contrasting with plaster elements and ink paintings, challenging perceptions of reality of what is up or down, near or far, air, land, or sea.

## 19th Annual Sac Open Studios to Honor Phil Isenberg

This year's studio tour is dedicated to Phil Isenberg, a committed public servant, environmentalist, arts patron, and founding Verge board member.

Verge incorporated as a non-profit in 2010, the same year the organization moved into its location at 625 S Street. Phil and his wife Marilyn made the first contribution to the new non-profit, a matching gift designed to act as a catalyst to motivate us to build a larger base of philanthropic support. That early gift did its job and in the years that followed Verge managed to buy its building and grow the organization from an operating budget of under \$60,000 in 2010 to over \$900,000 today.

In his tribute in the Business Journal, Ed Goldman referred to Phil as a "one man Works Progress Administration" for Sacramento. During his time on the council, Phil along with fellow council member Burnett Miller crafted a city/county partnership to support a regional arts commission now known as the Office of Arts and Culture. Later as Mayor, Phil went on to enact the Art in Public Places program, committing a percentage of all construction budgets for government buildings to public art. Those two agencies alone have supported countless artists and creative workers throughout the region for over 40 years with commissions, grants and jobs.

Phil's support of all creative endeavors was inspiring, and he and Marilyn consistently knew about the most interesting new restaurants, emerging artists, musicians, films, and festivals. If it was worth doing, Phil made a point of at least knowing about it, if not experiencing it firsthand. The more unusual or boundary-pushing the better.

Phil took his role as a public servant seriously, leading with an intention to make something better than he found it, with an absolute disregard for getting credit. Verge is honored to be included in that legacy. As the seasons change and we look to the fall, we hope that you will experience another of Phil's passions and visit the Phil and Marilyn Isenberg Sandhill Crane Preserve just south of Sacramento. The Sandhill Cranes begin their migration in October and continue through February.

In honor of Phil, we ask that you go out and experience all of the richness and beauty this region has to offer by supporting local artists and engaging with the Sacramento landscape.

Thanks for everything Phil! We'll miss you!
